

Trailers

16' Enclosed – Replace portion of floor

- Install new tie down system
- Tighten screws on outside of trailer
- Check wheel bearings

20' Enclosed – Replace locking mechanism for carts

- Check wall damage

24' Enclosed – Consider building shelving in front

- Consider installing blocks on side wall to be able to put in a shelf above the keyboard instruments

Open trailers – Sand and paint black portions of trailer

- Check all tires
- Check all bearings (re-pack)
- Remove wheels from enclosed trailer and sand and re-paint

Repair - One open trailer has a flat tire. Do we need to buy one?

Build

Put a mounting bar on the new marimba with 1 ¼ or 1 ½ square tubing

Build 2 percussion accessory carts (pictures available)

Build shelves in chorus room to place speakers on

Install security camera system in the band room

Maintenance Repair

~~Replace 32 inflatable tires with 32 hard rubber tires on 6 uniform carts, folding chair cart and drum major podium~~

Re-paint pit carts and remove rust as needed

Remove wires from back of band room and move to control room

Take Gator to B+B, if they agree to tune up

Replace seats in Gator with generic John Deere seats

Replace the door behind the band shed by practice field with something more sturdy
