Parents and Students,

We will not be working the 4th of July Freedom Festival this year.

Since they have a huge amount of vendors this year scheduled for the park, they are limiting what items can be sold by vendors and although they have allowed us to sell funnel cakes we will not be able to sell drinks. Over 1/3 of our profit came from drinks last year. That would make us raising probably less than \$750.00 for the day this year.

Although any amount of money is welcomed as a fundraiser. We try to be as smart as possible and not wear our parents and students out on low yielding fundraisers.

I had proposed to make \$900.00 at the 4th of July concession so we will have to make up for that concession in other ways. You will be seeing a new fundraiser in the next 2 weeks that could take us well over the proposed \$900.00 4th of July concession. It involves selling compact fluorescent light bulbs at \$1.00 a piece.

More information will be coming soon.

Thanks,

Jorge A. Benitez
